LIEBTRIC from LIEBTRICITE-5

Biographic data from disseminations forwarded to Mexico City in 111-W-5318 (including CS 3,328,445, CS 3,320,770, and CS 3,329,540) and 111-W-5450 has also been included in an effort to present the most complete identifying information on each person attending the festival. The report is evaluated D-2 except in those sections noted by asterisks. The travel of the majority of the persons listed was confirmed by more than one source. Those cases which still remain unconfirmed are marked with an asterisk and evaluated D-6. This report has not been placed on a mat, since it is felt that headquarters may be able to provide further information which will confirm those cases which are questionable.

2. 111-W-5270 referred to the tour in China of Mexican folk and ballet dancers. These persons are included in the attached list of those attending the festival. Concerning the possible debriefing of any members of this group, LIEBTRIC has advised that the greater part of the group are homosexuals, unstable personalities, and persons otherwise unsuited for the purpose which HUBBARD has in mind. The Communists and non-Communists alike have in common a dislike for PERKINS. LIEBTRIC, who knows most of the individuals personally, has been instructed to note and report in the future on any person from the group who might be considered a satisfactory subject for debriefing. LIEBTRIC is the source of the "source comments" on members of the dance group.

El Anheló de una Paz Verdadera

Entrevista con la Secretaria General del
Comite Nacional Pro VI Festival Mundial

En esta ocasión deseamos dar a nuestros lectores una opinión que por venir de una persona muy destacada dentro de los preparativos del Festival ofrece gran interés. Alicia Urrutia, quien junto con Tonatiuh Gutiérrez, encabezan nuestro Comité Nacional, es ampliamente conocida por todos los Comités y Organizaciones que apoyan al Festival en México por su incansable actividad y dedicación a la difusión de los ideales y nobles objetivos que alientan la celebración de ese evento internacional.

Hemos conversado con ella y ha accedido a que publicamos la contestación que nos dió a las preguntas que le formulamos.

—Díganos, Alicia, cómo ha sido recibida la iniciativa de la celebración del Festival entre los jóvenes mexicanos?

—El VI Festival, nos contesta, ha despertado entre los diferentes sectores juveniles de la República un entusiasmo extraordinario y este ha dado como resultado que la delegación mexicana haya preparado con verdadero entusiasmo y patriotismo, todas las manifestaciones que, elegidas dentro de las más representativas del arte, la cultura, la ciencia y las diferentes especialidades

Alicia Urrutia, Secretaria General del Comité del Festival.

des, serán mostrados a la juventud del mundo durante dicho evento.

—¿Cuáles a tu juicio pueden ser las razones que han determinado una más amplia participación de la juventud mexicana en el Festival?

—Es importante hacer notar, subraya, que el verdadero significado del Festival ha sido perfectamente comprendido por los jóvenes mexicanos.

En anhelo de una Paz verdadera.

ra y de una amistad basada en el conocimiento y el respeto a todos los países del mundo no ha hecho tener como una responsabilidad nuestra participación directa o indirecta en las preparativas y en la realización del Festival. Y no solamente han sido los jóvenes, sino también notables personalidades de nuestro país las que han manifestado todo su apoyo a esta extraordinaria manifestación de la cultura juvenil de todo el mundo y, en particular, a la juventud mexicana.

—¿De qué tipo crees que va a ser la experiencia que el Festival dejará a los delegados.

—“Creemos que la experiencia que nos proporcionará nuestra calurosa y participativa en el VI Festival será, en un más amplio sentido, una experiencia verdaderamente pacífica y que las observaciones del Festival servirán de un poderoso estímulo para convertirse en tangibles, individuales y colectivamente, en el arte de todas las jóvenes del mundo. Al mismo la posibilidad que nos ofrece el Festival de conocer las manifestaciones culturales y tradicionales de los jóvenes de los diversos países nos dará una nueva perspectiva de nuestros problemas y, quizá, nos descubrirá nuevas rutas a elevarse”.

OTRO FESTIVAL EN REYNOSA

El día 7 de junio tuvo lugar un Festival Rural Deportivo en honor del VI Festival Mundial, en el Ejido de Santa Apolonia, Reynosa. El programa comprende competencias ciclistas (se calculan unos cien participantes), elección de la Reina del Festival, encuentros de box y lucha libre, actividades literarias y un alegre baile. Con el objeto de popularizar este evento los jóvenes han impreso ya un Samanajeño. De Reynosa asistió un delegado al IV Festival de la Laguna.

BAILE EN TLALPAM

El domingo dos de junio en el vecino poblado de Tlalpam, D.F., un numeroso grupo de jóvenes, habiendo tenido conocimiento del VI Festival y deseosos de divulgar entre sus amigos y compañeros este importante evento, organizaron un alegre baile que por ser el primero de esta naturaleza atrajo la atención de los muchachos y muchachas del lugar. El local donde se realizó la fiesta estaba adornado con carteles y leyendas, de entre las cuales destacaba una que decía así: "Este baile se organiza en honor del VI Festival de la Juventud y los Estudiantes. Por la Amistad y la Unidad de la Juventud. Te invitamos a que participes con acoetres, organizaremos equipos de vólibol y básquetbol, para muchachos y para muchachas".

Ahi trabaron amistad multitud de jóvenes que trabajan en las fábricas vecinas, quienes al intercambiar sus puntos de vista y al calor de los preparativos del Festival, decidieron organizar un club deportivo para llevar adelante sus aspiraciones deportivas. Quince días después, en otro baile, este entusiasta grupo de muchachos ha nombrado ya su directiva, la que de inmediato empezó a relacionarse con otros grupos de jóvenes y también a trabajar para conseguir los equipos y útiles deportivos que necesitan.

COMPETENCIA CICLISTA

El Club Deportivo Rodeo que ha surgido al calor de los preparativos del VI Festival Mundial y dentro del programa de actividades que se ha trazado para difundir entre todos los jóvenes las ideas del VI Festival, ha realizado el pasado domingo 18 de junio una carrera ciclista que comprendió la ruta siguiente: lugar de partida, la Colonia el Rodeo, continuando por la carretera de Puebla hasta dar vuelta en la Cárcel de Mujeres para llegar a Intapulpa y de ahí regreso al Rodeo.

En esta carrera participaron jóvenes ciclistas del Club Mutualista de Intapulpa, D.F. y del Club Deportivo El Rodeo.

En la meta y sostenida por dos postes, a los lados de la carretera, estaba una guirnalda de flores de la cual pendía un gran cartel que decía: "Esta carrera es en honor del VI Festival Mundial".

También el local del club presentaba un aspecto alegre, pues estaba adornado con carteles multicolores alusivos al gran encuentro de la juventud en Morelia. Un grupo de señoritas designadas como madrinas esperó en la meta a los corredores. El primer lugar fue para un corredor del Rodeo. El segundo y tercer lugares fueron para competidores del Club Mutualista de Intapulpa. Momentos después de la carrera en el local del Club Rodeo, el Presidente del mismo local la palabra para explicar el significado tan elevado del Festival. En medio de ruidos aplausos fueron entregadas, a todos los competidores las insignias deportivas de la Federación Mundial de Juventud Democrática. Por la tarde se realizó la entrega de trofeos que fue rubricada con un baile en el cual se potenció la amistad forjada al calor de estos encuentros deportivos.

Y UN HOMENAJE

La sensibilidad y el vigor creativo de los artistas del Boz de Gráfica Popular, se pone de manifiesto con los grabados que representan aspectos de la vida de la juventud mexicana.

versario de su fundación. Fácil es decirlo, mas cuanto actividad, sacrificios y esfuerzos se enloboan en ese simple guarismo, pero que han producido un arte vigoroso, combativo, que ha marchado a su paso con nuestro pueblo, comprendiéndolo y amándolo. Ello ha permitido al IGF convertirse en un centro vivo de nuestra cultura nacional actual, apreciada por propios y extraños.

Al Festival Mundial concurrirán representantes suyos que participarán en el encuentro de jóvenes artistas plásticos, en el cual los conceptos estéticos que mantienen nuestros grabadores modernos se darán a conocer. También preparan una selección de sus obras que acompañará a la exposición que se llevará al Festival. En este número presentamos a nuestros lectores algunos de los seleccionados.

los "señorales". Pero para, francamente... "Mucillos - Bélgica. 400 mineros bloqueados en la galería en llamas de Bois Gosiers". Millones de lectores en el mundo siguen con angustia la idónea lucha contra la muerte que tiene lugar allá, a 1.000 metros bajo tierra.

"Lievin, Francia... Marzo de 1957. Una explosión de grisú, 10 muertos, numerosos heridos"... otra noticia trágica.

Si así ocurre frecuentemente, demasiado frecuentemente. Y entonces, delante de las bocas de las minas se agolpa una muchedumbre silenciosa, angustiada, impudencia? ¿Falta de medidas de seguridad? En efecto. Pero, indudablemente, esto no es debido a la "fatalidad" o a riesgos inevitables en el oficio".

El futuro del joven minero está estrechamente ligado a la aplicación de medidas de seguridad, directamente relacionadas con la técnica. ¿En qué medida? Pues bien, en la medida en que los nuevos procedimientos permitan realizar el sueño de siempre: hacer salir al obrero del negro boquete de la mina. La técnica moderna de extracción hidráulica que se emplea actualmente por desgracia ni de manera general ofrece las garantías a las que nos referíamos antes.

El minero tiene actualmente la posibilidad de dirigir su máquina estando fuera del tajo, en una galería bien asegurada contra los derrumbes. Desde ahí con una máquina dirige un charo de agua de una potencia fantástica. El agua le hace todo: arranca el carbón, lo lleva hasta los pozos de extracción, de donde es elevada a la superficie por un sistema de bombas.

Los jóvenes mineros soviéticos de la cuenca de Kuznietz tienen una gran experiencia a este respecto y no cabe duda que sus explicaciones serán escuchadas con atención por los jóvenes mineros de otros países que vengan como delegados al Festival.

Si, ahora se puede decir ya sin ringuna duda que la profesión de minero es una hermosa profesión.

"Claro es —nos podrán objetar— eso está muy bien. Pero es necesario que se aplique la técnica moderna en todas partes. ¿Es esto posible?"

Aquí nos hemos referido solamente a un aspecto —el aspecto trágico y más doloroso— de esta cuestión. Pero hay otros muchos problemas que afectan a la vida y al trabajo de los obreros relacionados con el trabajo de los obreros y los cargadores, con instrucción profesional y la posibilidad de calificarse, con la necesidad de alterar los trabajos bajo tierra con los trabajos en la superficie, etc., están ligados con los nuevos métodos de trabajo. Todo esto nos permite entrever un debate acalorado alrededor del tema que se propone para ser discutido: "La mano de obra en las minas, la protección del trabajo y de la salud de los jóvenes mineros".

¿Pero por qué esperar hasta el Festival para conocer las opiniones de ustedes sobre una cuestión que es objeto de tantas discusiones? Demos a conocer ya desde ahora, cuando se desarrollan los preparativos, qué problemas les parecen los más importantes.

Y este cambio de ideas y de experiencias serán una valiosa aportación y ayuda para todos los jóvenes mineros.

Lo mismo podemos decir en torno a los demás encuentros profesionales.

ESTOS CONTRINCANTES SON NUESTROS AMIGOS

Nunca he podido asistir a los festivales. Por eso estoy muy contento de que el VI Festival Mundial de la Juventud y de los Estudiantes vaya a celebrarse en Moscú, donde se encuentran los jóvenes de diferentes países para conocerse y establecer amistad, para proclamar a todo pulmón su aspiración a la paz.

Me sentiré muy satisfecho de poder ver en Moscú a mis amigos deportistas. En la XVI Olimpiada el equipo de fútbol soviético jugó con los futbolistas de la República Federal Alemana, de Indonesia, Bulgaria y Yugoslavia. Conocemos hace mucho tiempo a los deportistas de estos equipos, y he conocido sinceridad he de decir que me alegraron sus éxitos en los Juegos Olímpicos, aunque los futbolistas de estos países nos pusieron en serios apuros. Nuestra victoria sobre estos equipos fue conquistada tras una lucha muy reñida. Nosotros ganamos, pero no por esto disminuyó nuestra simpatía mutua.

Durante la XVI Olimpiada nosotros, futbolistas soviéticos conquistamos muchos nuevos amigos. Y no sólo entre los maestros del balompié, sino entre los basquetbolistas, gimnastas y baloncestistas. Nos proporcionará gran alegría aquellos amigos que vengán al VI Festival Mundial de la Juventud y de los Estudiantes, a todos ellos les espera el más cálido y cordial recibimiento.

Como futbolista, y esto es natural, quisiera encontrarme de nuevo con mis antiguos rivales y amigos.

A menudo recuerdo la noche del 16 de noviembre de 1954 en la ciudad inglesa de Wolverhampton. Aquella noche, el equipo soviético "Spartak" jugó contra el "Wolverhampton Wanderers" y conocí a su capitán Bill Right. Entonces perdíme el partido por 4 a 2.

Nuestro siguiente encuentro con el equipo de los "lobos" se jugó en agosto de 1955 en el estadio "Dinamo". El capitán del equipo inglés, Wolverhampton Wanderers, se acercó a mí mucho antes del partido me dijo palabras en su idioma. Me entendí lo que me decía, pero así, que se trataba de unas cálidas palabras de estimación. El "Spartak" se tomó en serio el desafío y venció a su peligroso adversario por el único de 3 a 0. Bill Right jugó magníficamente. A él deben los jugadores ingleses que no tuvieron tantas buenas cosas más en su portería. El futbolista soviético Mikhail Pashin, marcado por el inglés Bill Right, tuvo que hacer grandes esfuerzos para un jugador de tanta categoría.

Recordaré durante mucho tiempo la semifinal del campeonato de fútbol celebrado en Melbourne, jugábalamos contra el equipo de Bulgaria. El primer gol fue marcado en nuestra portería por el interior izquierdo Iván Kolev. Es probable que lográramos la victoria con gran dificultad. El partido terminó 3 a 1. El primero que me felicitó y deseó éxitos en la final fue Iván Kolev. Aquel día por la noche vivimos a Iván Kolev en el Club Olímpico. Se conversó a nos y nos preguntó qué tal es aquella Mishol Tschoban, que en el partido jugado contra los búlgaros se había lesionado seriamente.

A partir de entonces, Iván Kolev venía a vernos a menudo y hablébamos él durante mucho rato acerca del deporte y de la amistad de los deportistas de los diferentes países. Iván Kolev nos manifestó su deseo de encontrarse de nuevo con los futbolistas soviéticos en el campo de 1955.

Quisiéramos ver este verano en Moscú a Iván Kolev, así como al capitán del equipo inglés Bill Right y al famoso futbolista del mismo país Stanley Matthews.

¡Venga, amigos! No sé si me encontraré con vosotros en la verde césped del estadio, lo que sí es que me encontraré con vosotros en cualquier otro sitio de nuestra capital. Yo os lo aseguraré, remarcada y enagracada para recibir a los delegados al VI Festival, fiesta de la juventud del mundo y de los amigos.

Igor Netto.

Captán de la Selección de fútbol de la U.R.S.S.

El diputado Rami Marañón Adnani, dirigente de la Juventud Radical Chilena y miembro del Comité Nacional Preparatorio del VI Festival en Chile, ha remitido una carta a la Juventud Radical Argentina en la que, entre otras cosas, dice lo siguiente:

"Debido a los últimos acontecimientos internacionales, hoy es más imperioso que nunca dilucidar y consolidar las ideas de paz y amistad entre la juventud del mundo entero, por encima de toda diferencia de opiniones, ideologías o creencias.

De ahí que es hoy más firme propósito trabajar con el mayor entusiasmo posible por integrar un grupo apreciable de nuestros miembros a la delegación, que nuestro país enviará al VI Festival Mundial de la Juventud, a celebrarse el presente año en Moscú.

No dudo que los sentimientos pacíficos que anidan en lo más profundo del corazón de la joven generación de mi patria, y que la mueven a asistir a este torneo, son también los vuestros, los de toda la juventud del continente.

Animado de este sentimiento, espero que los jóvenes radicales argentinos y chilenos nos encontraremos en esta gran cita de la juventud del mundo".

la Amistad.

...los jóvenes, se ha realizado en la Comarca Lagunera, en el IV Festival de la Juventud, sucediéndose, emocionantes encuentros deportivos, luminosas manifestaciones del Folklore, celebraciones artísticas culturales y alegres e inolvidables noches Mexicanas.

Durante el primer día realizáronse encuentros de Beisbol por el Campeonato del IV Festival de la Juventud Lagunera, simultáneamente, en el campo deportivo "La Esperanza" y en el Ejido de "San Miguel" y dada la calidad de los equipos participantes, constituyeron una parte de la más apasionante del Festival. Por la noche para inaugurar, formalmente el IV Festival, se realizó la Gran Carrera de la Amistad, con antorchas en relevos, cubriendo la distancia de más de quince kilómetros entre las vecinas ciudades de Lerdo, Gómez Palacio y Torreón. Cincuenta jóvenes corredores escoltados por motociclistas y automóviles con sirenas, atrajeron la atención de los habitantes de la región que se congregaron por miles a ambos lados de la carretera, para verlos pasar. La meta final de esta carrera estaba en el sitio donde se hizo la velada inaugural, en la que tomaron la palabra destacadas personalidades de la Región y un representante del Comité Nacional Pro-IV Festival Mundial. En esta velada el coro infantil Lagunero interpretó boleros, canciones Nacionales, y el conjunto de charros de Zacatecas, presentó un brillante número de flores a pie, cerrándose la velada con un animado baile.

El segundo día del Festival, es sin duda alguna uno de los más inolvidables, realizáronse por la mañana en los Campos Deportivos del Instituto Francés de la Laguna, apasionantes encuentros de Fútbol en tres categorías diferentes y en torneo relámpago por la Copa del IV Festival, entre dieciséis equipos, el espíritu de competición deportiva se manifestó en estos encuentros, pues participaban equipos de los dos Estados vecinos en la Comarca Lagunera, Coahuila y Durango. Por la noche, en la Plaza de Armas de Gómez Palacio, Durango, efectuóse una gran noche Mexicana con alegría y júbilo, hubo concursos de aficionados al canto, con curules de baile, exhibición de flores, y la nota más llamante de la noche la pusieron los hermosos muchachos de la Comarca Lagunera. La noche Mexicana concluyó en la madrugada con un baile popular en uno de los costados de la Plaza de Armas.

El día 30 a temprana hora, ya había congregados en el Bosque V. Carranza en Torreón: gran cantidad de gente esperando la iniciación del Gran Criterium Ciclista, en el que participaron más de 40 corredores seleccionados por la Asociación Ciclista de la Laguna, en tres categorías diferentes, para los trofeos del IV Festival, siendo el primero una llamante bicicleta donada por el Ejido "Flores Magón" de la Unión de Sociedades 40-57, para estos juegos deportivos del IV Festival de la Juventud de la Comarca Lagunera. En el mismo Bosque se realizaron también los encuentros de Vólibol y Basquetbol, entre equipos de los barrios, de los ejidos y de sociedades.

Por la tarde se celebró el encuentro de Beisbol por el campeonato, entre los equipos vencedores de los juegos iniciados anteriormente, quedando como campeón el equipo del Ejido de "Arturo Martínez Adams", y como sub-campeón el equipo del Ejido del Perú. A todos estos encuentros asistió gran cantidad de gente. La nota más sobresaliente del Festival fue dada por un conjunto de charros enviados especialmente desde el Estado de Zacatecas, pues en las exhibiciones que dieron: en el Palacio de Torreón y en el Ejido de San Miguel, demostraron un acendrado conocimiento y dominio de esta tradicional Fiesta Mexicana. Por la noche del 30 tuvo lugar una ceremonia de entrega de trofeos y 25 clausura del Festival, con actos presentados por conjuntos participativos del IV Festival, clausurándose el Festival, con un gran baile y la coronación de la Reina de la Amistad.

El movimiento lanzado por el Comité Preparatorio desde el mes de mayo, encontró una amplia acogida entre las organizaciones, grupos e instituciones que colaboraron para el desarrollo del Festival, podemos mencionar las siguientes: Coro Infantil Lagunero del Prof. Ramírez Soza, Conjunto Teatral del Dr. Garibay Fernández, Conjunto Folklórico de la Irota, Alvarado, Conjunto de Charros de Zacatecas, Conjunto de Baile del Colegio Elliot, Dueto San Miguel (cantantes de la radio), Conjunto de Atletismo de Ciudad Lerdo, Durango, Conjunto Deportivo del Ejido "La Paz", Conjunto de Atletismo del "Nostro" de Gómez Palacio, Durango, Delegación de la Cruz Roja Mexicana en las tres ciudades, Autores Ejidales de San Miguel, 6 equipos de Vólibol ejidales de escuelas, 10 equipos de Fútbol ejidales y un equipo de Fútbol, 4 equipos de Beisbol ejidales, la Empresa Jobonera "La Esperanza", el Instituto Francés de la Laguna, la Delegación Local del Depto. de Tránsito, Autoridades Municipales de Cd. Lerdo, de Gómez Palacio y de Torreón, Asociaciones Municipales de Cd. Lerdo, de Gómez Palacio y de Torreón, Asociación de la Juventud Cristiana (WAY) Asociación de Beisbol de La Laguna, Frente Nacional de Artes Plásticas, Juventud Comunista de Coahuila, Asociación ciclista de La Laguna y la Unión de Sociedades de Crédito Ejidal 40-57.

LAS COLONIAS PROLETARIAS DEL D. F. REALIZARON UNA GRAN CARRERA CICLISTA

El día siete de las corrientes se realizó en la Colonia Michoacana una gran carrera ciclista, convocada por el Club Cultzen y a la que respondieron las siguientes clubs: Deportivo Ponce, Mutuatista de Ixtapalapa, Ciclista de la Colonia Río Blanco, Deportivo de Tlalpan, Deportivo Numero Rubio y el Club Motociclista Germania que cooperó brillantemente en la protección a los ciclistas durante el desarrollo de la carrera.

El motivo de la realización de esta festividad en la Col. Michoacana es, el de hacer un homenaje a la Constitución y al Pensamiento Liberal Mexicano, y en Honor al VI FESTIVAL MUNDIAL DE LA JUVENTUD Y LOS ESTUDIANTES POR LA PAZ Y LA AMISTAD.

La meta fue iniciada por la Av. Canal del Norte en donde hubo una gran concentración de personas, se contaban por miles los asistentes a esta carrera, que demostraban gran entusiasmo por sus corredores favoritos. Asistieron a lo largo del anillo de 4 kilómetros a través de 6 colonias proletarias más de 8,000 personas, habiendo participado más de 200 deportistas. Al final de la carrera donde estaba instalada la tribuna de Honor, presidida por nuestra Srta. Gral. Alicia Urueta, Delegados de la Confederación de Jóvenes Mexicanos, de la Juventud Comunista y de los diferentes Clubs participantes, se realizó un gran acto de entrega de trofeos, en donde diferentes oradores destacaron la importancia de la amistad y del pensamiento juvenil, para hacer notar la importancia de la desconfianza tanto en un plano local como Nacional e Internacional, en los problemas más variados de la juventud. Al final el Coro "Silvestre Revueltas", deleitó a los asistentes con bellas interpretaciones de música mexicana.

Los entusiastas porras de los diferentes equipos participantes dieron una nota de gran alegría al acto de entrega de los trofeos, que fueron entregados a los distintos vencedores por manos de la Srta. Gral. del Comité Nacional Pro-VI Festival Mundial de la Juventud.

Diversos problemas inquietan a la juventud campesina. Los muchachos y muchachas de Italia piensan en que hacer para que los obreros agrícolas reciban el mismo jornal que los obreros industriales, qué hacer para que la gente de las aldeas tenga el mismo nivel de vida que la de la ciudad, para que se mejore la asistencia médica, cultural, etc. Pero el problema crucial que se plantea es el deseo de tener su propia tierra.

En el norte de Europa, en Finlandia, el problema de gran importancia es la llamada "huida de la aldea". A los amigos finlandeses les preocupa también cómo mejorar la enseñanza de la juventud rural, la manera de obtener un empleo permanente y no temporal. Por lo tanto entre los jóvenes campesinos de todo el mundo hay no pocos problemas comunes que les liguen en la vida y en el trabajo. Y no sería acaso interesante repasar cuáles de la juventud o toda la tierra se reuniera para hablar impresiones? ¡Claro que

ACTIVIDADES PARA LOS JOVENES CAMPESINOS

Por eso durante el Festival se celebrarán diferentes actos y reuniones dedicados a los jóvenes campesinos. Y de ello queremos hablar aunque sea someramente.

ENTREVISTAS ESPECIALES

Dentro de las entrevistas por profesiones se destaca una, sobre de jóvenes campesinos granjeros y arrendatarios. El tema a debatir es en torno a las posibilidades de los jóvenes a manera rentable, también tendrá lugar un intercambio de experiencias

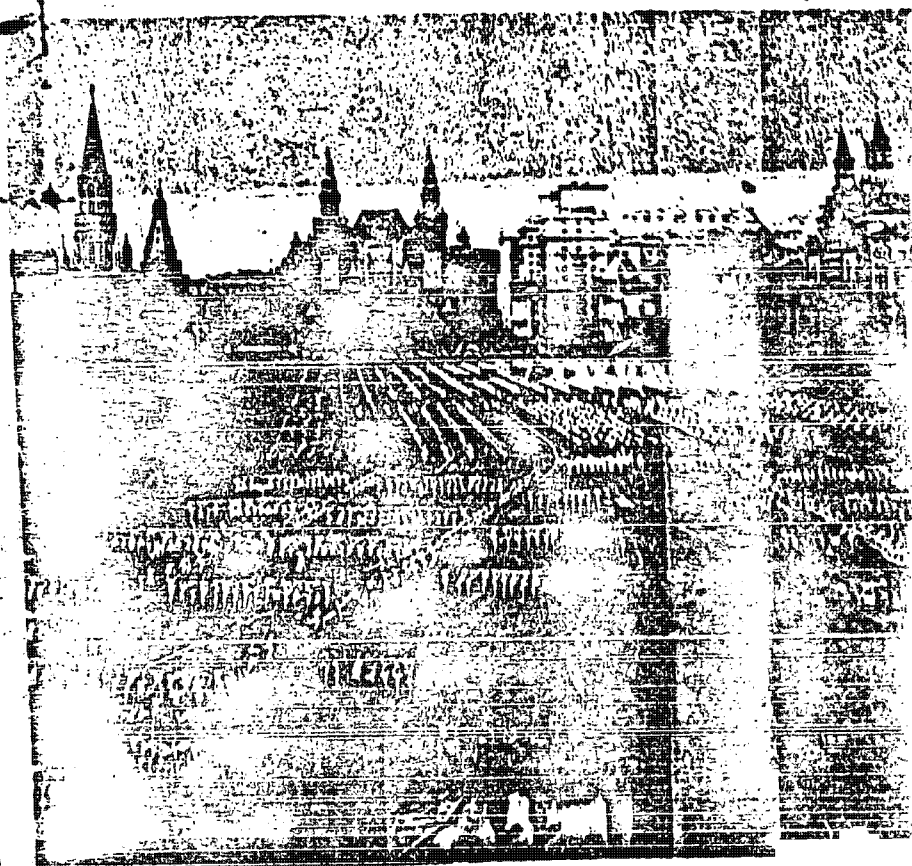

Entre los 35 países que han mandado delegados ya se han presentado a recibir a los delegados campesinos del Festival, está el señor Gerki, stando a una 20 Kms. de Moscú.

Ya siendo ahora queremos de la bienvenida a los delegados que van a visitar nuestro hogar a agosto dice su presidente, Nikolá Monin: Los recibiremos con música y los mostrarémos todo lo que tenemos, les hablaremos de nuestros problemas y nos sentiremos muy felices si esto los ayuda en algo. Si todo queremos quedar como buenos amigos.

EN LA EXPOSICION AGRICOLA

Seguramente que uno de los lugares favoritos para los delegados del Festival será la Exposición Agrícola de la URSS que se extiende a través de 207 hectáreas, con sus 200 pabellones y edificios representando a todas las Repúblicas Soviéticas, con su peculiar estilo nacional, tendrá lugar una gran fiesta de juventud rural. En las alamedas plantadas los jóvenes campesinos traerán las diferentes tradiciones para celebrar el Día de la Cosecha.

Numerosas charlas con la Academia de Agricultura rusa y de la Base Experimental, Investigaciones Científicas del Instituto de Genética están también previstas. En de esta manera como jóvenes campesinos participarán activamente en la grandiosa fiesta por la Paz y la Amistad de la juventud del mundo.

ESTO LO VERAN LOS DELEGADOS.—Moscú, la monumental A la izquierda puede verse el Monumento de Lenin y Stalin, el al fondo el Museo Histórico y a la derecha las torres del Kremlin.

Content: Para 2 (Documentary); Paras 3-8 (3).

1. Previous reports have mentioned a Communist youth group called the Juventud Democrática which was organized in Ciudad Obregon, Sonora, in 1956.

2. The official stationery of this group bears the following information:

Comite Regional de la Juventud Democrática
Del Valle del Yaqui, Sonora, Mexico
Adherido a la Federación Mundial de la
Juventud Democrática (F.M.J.D.)

Calle Sonora Num. 165 - Sur.
Ciudad Obregon, Sonora, Mexico

Comité Ejecutivo:

Presidente: Ramon ESCALANTE
Vice-Presidente: Crisóforo FIGUEROA
Secretario de Organización: Luis DANZOS Palomino
Secretario de Prensa y Propaganda: Antonio PENA Ochoa
Secretario de Relaciones: Pedro VASQUEZ
Secretario de Acción Cultural: Octavio LOPEZ Rodriguez
Secretario de Acción Deportiva: Manuel LUGO
Secretaria de Finanzas: Dora Estella PORTILLO
Secretaria de Actas y Archivo: Rosa CASTRO R.

3. In addition to the above listed officers, Evangelina LOPEZ Rodriguez has been reported as Secretaria de Acción Feminil of the JD in Ciudad Obregon.

4. On 27 October 1956 it was reported that Ramon DANZOS Palomino, Bernabe ARANA, and other members of the Partido Comunista de Mexico (PCM) were conducting Communist indoctrination sessions for JD members at the home of Vicente PADILLA Hernandez, Calle Nuevo Leon No. 213 Norte, Ciudad Obregon. These PCM leaders appeared determined to expand the membership of the JD at the expense of the Juventud Popular (JP), youth organization of the Partido Popular (PP).

5. In view of the overlapping of JD and JP membership, especially at the leadership level, a serious disorientation of the JP has occurred. Whereas in the past the energies of the members of the JP were oriented completely towards the PP, with the emergence of the communist JD a number of the more prominent JP members have begun to openly preach communism, with resulting disagreement and internal division within the JP.

6. One woman, known as "La China", a long-time, loyal member of the PP, reported to Mariano VASQUEZ, PP Secretary General in Ciudad Obregon, that JP meetings in her house at Ejido Guadalupe Victoria had been turned into communist meetings by certain JP leaders who made no attempt to conceal their communist convictions.

7. Ramon DANZOS Palomino, the mentor of the JD, has been singled out by the PP as the cause of this division in the ranks of the JP.

8. The JD is somewhat of a mystery and many PP and JP members in Southern Sonora are not able to explain satisfactorily its reported connection with the PCM or its program of action. There is no doubt that the JD membership as a whole is more completely communistic than the JP.

NOT SUITABLE FOR MICROFILM

This Bureau recently acquired seventeen items that purportedly cover matters investigated by the Policia Secreta (Cuban Secret Police). These items were made available by a former member of the Policia Secreta who claimed he had removed them from the office of the Policia Secreta after the fall of the Batista Regime and kept them in his home until he furnished them to a representative of this Bureau. The source who made these items available was unable to further evaluate the material.

A cursory review has disclosed that the items consist for the most part of lists of names of individuals reportedly connected with the Partido Socialista Popular (Communist Party of Cuba). The majority of the lists are undated or are dated prior to 1951. In addition, one of the items consists of 52 reports prepared by agents of the Policia Secreta. These reports, which are dated from August 28, 1956, until August 22, 1957, contain the results of applicant-type investigations conducted on individuals who sought positions in the Government. Most of the individuals investigated appeared to be loyal to the Batista Regime.

Inasmuch as the information in the items appears to be of primary interest to the Central Intelligence Agency, the items are being made available to that Agency. In event any of the agencies receiving copies of this letter are interested in the information contained in these items, it is suggested that the Central Intelligence Agency be contacted for its evaluation of the information.

2. Attachment #2 to this dispatch consists of names extracted from LIBRIFORM'S summaries for RI carding. FOR EE: please see that the cards are made as indicated but, in addition, that the words CZECH CONTACT, MEXICO, are put on them. If feasible, please ask RI to return all cards at one time to EE Division, for transmittal to Station. Many of the cards requested in HMA 19255 of 10 July 1962 do not appear to have been received and/or were received with such delay and so spasmodically that they were of almost no help to Station in its review of the June-October summaries. However, those that were received were very well done.

3. All names for RI carding in current Attachment #2 were checked against Station files and were completed with 201 numbers, entire name, and Station P file numbers where possible.

4. For EE: The Austrian Desk may be interested in the comments on Walter ~~Vessel~~ (matronymic Weiss) in Attachment #2, although Subject may now be a Mexican citizen.

5. The Czech Desk may care to note the fact that one Mrs. Yvonne ~~Retter~~ is in contact, possibly through the Czech diplomatic pouch to Mexico, with a (Dr) Rudolf ~~Illis~~ who has a Prague address.

6. The engineer named Schmill in the LIBRIFORM summaries is undoubtedly Jose Vidal ~~Schmill~~ Sida, subject of MEXI 2248 of 18 October 1962.

7. On 15 August, a man (no name was given) phoned Leo KLIMSA and gave him the following numbers: A 514873 and B 477350. Nothing else was said. A check with an Embassy Economic official indicated that these could possibly be part numbers for equipment (possibly for aircraft), and that the letters A and B could stand for the shipper (such as American Airlines, Braniff, et cetera). They could also, of course, be shipping document numbers, but the official knew of none in these high brackets. Headquarters may want to check this further through the Department of Commerce. (This paragraph may also be of interest to WH Division.)

8. For WH: The Chilean Desk may be interested in comments on one Jules ~~Pissaro~~ and one Ernesto ~~Cobler~~ who appear to be friends of Czech scientist Geza (or Giza or Geiza) ~~Mencer~~. (These names are all mentioned in Attachment #2.)

9. The Brazilian Desk may be interested in noting that a Czech named Karel ~~Spreicer~~ (or ~~Spreizer~~) was refused a visa by the Mexican Government and then decided to go to Brazil to manufacture merchandise for export. DOI: July 62. (See Attachment #2.)

10. For EE and WH: Please see page 1 of the July take on Vaclav Kubata. The number 46-41-90 that Professor Arturo Montero phoned "about printing tests of the Czechoslovak Bulletin" is that of the Mexican Government printing office: "Talleres Graficos de la Nacion". A check to determine whether this Government printing office is allowed to print private matter is being made, but the information has not been received to date.
